UNITY FOODS LIMITED:

Unity Foods Limited aims to provide *food for life*. We transform crops into products that serve the vital global needs in food sector of the growing world. We have diversified our business portfolio to operate in various agro product mix for a global breadbasket, handling various agro commodities to connect them from farm to dining table, from where they are grown to our customers' doorstep. Our products include Edible Oil, Industrial Fats, Flour, and various feed ingredients for poultry, livestock and aqua sector. Being innovative, we provide customized solutions to industries handling food and feed products to enhance their performance and profitability.

What is SOYBEAN MEAL LOW-PRO:

Pure Soybean Meal LOW-PRO is an outstanding source of supplemental protein in diets for livestock and poultry. It is a rich source of lysine, tryptophan, threonine, isoleucine, and valine – the amino acids that are the building blocks of protein within the poultry and livestock.

Pure Soybean Meal Low-pro has high energy content and with the right balance of amino acids provides greater digestibility in the monogastric animals.

PURE SOYBEAN MEAL Competitive advantages over others:

PURE Soybean Meal made from US soybeans, considered the best in nutritional value.

- Consistent quality of the protein and nutritive value
- Higher essential Amino acid content per unit of crude protein
- Better uniformity
- Higher soluble sugars
- Higher Fat, Sucrose and Stachyose
- Higher KOH protein solubility
- Higher protein dispersibility index

PURE SOYBEAN MEAL LOW-PRO Benefits:

- Use of Pure Soybean Meal in the animal feeds enhances the amount of protein & energy in animals feed.
- Pure Soybean Meal is free from toxic substances.
- Pure Soybean Meal tastes good, hence animals eat it eagerly.
- Pure Soybean Meal is more digestible than other oil cakes.
- Pure Soybean Meal enhances the milk fat.
- Pure Soybean Meal makes the animals healthy, and increases the profitability of the farmers.
- Pure Soybean Meal is a high source of protein.
- Pure Soybean Meal increases milk.
- Pure Soybean Meal increases body weight.
- Pure Soybean Meal protects the animals from various diseases.
